Dawn, I just want to commend you on assembling a great group of Professionals, Office staff and Therapist to interact with patients in your facility. My experience as a patient from February-August, 2013 was very positive. I was always greeted with a smile from Miranda and Nicole, treated with respect by Jessica and the other therapist; the Medical staff was very cordial and informative. I never had to wait for my appointment. The facility was very clean—particularly the floors were impressive. All of these aspects related to treatment in any medical environment make such an impact on people's mental state, whether they realize it or not. For sure it makes a world of difference to me. Thank you for a pleasant experience at DPMg.

Sincerely,  
  
Marie S. Hammer
